POSITION

508 COMPLIANCE ANALYST | TESTER

Location: McLean, Virginia

Description

Knightfork LLC has an immediate need for a 508 Compliance Analyst | Tester that will be responsible for supporting the Section 508 in ensuring that external clients and internal program areas receive accurate information regarding compliance to Section 508 of the Rehabilitation Act of 1973.

Responsibilities may include:

- Develop an understanding of the process and documents supported by client
- Work with Program Area teams to ensure Section 508 is properly accounted for each phase
- Work with Solution Delivery design and developers to ensure that Section 508 has been incorporated correctly into software and Web applications
- Test software, Internet applications and hardware as needed for Section 508 compliance
- Participate in formal and informal reviews at pre-determined points throughout the project life cycle
- Develop an understanding of client test approach and management plan

Requirements:

- Knowledge of Federal government procurement process (FAR)
- Knowledge of assistive technologies and Section 508 testing tools
- Experience with technical editing and writing
- Must have experience testing software/we applications for Section 508 compliance.
- Must be able to read and understand requirements documents, write test plans, assist in evaluating software requirements, performing system tests, and with writing test summaries and reports.
- Desirable candidate skills include excellent communication skills, experience working with several clients or projects simultaneously, technical competence and strong organizational skills. Working knowledge of PVCS Tracker.
- BS in Computer Science or related field plus 2 + years related work experience.
